AMPTECH INC.'s Position Statement on REACH

This statement is AMPTECH INC's position regarding REACH, the European Community Regulation on chemicals and their safe use (EC 1907/2006). The Regulation deals with the Registration, Evaluation, Authorization and Restriction of Chemical substances. At this time member states or the European Chemical Agency (ECHA) have approved a candidate list of 144 substances. <http://echa.europa.eu/web/guest/candidate-list-table>

REACH article 33 requires:

- The supplier to inform the recipient if the article supplied contains a substance of very high concern (SVHC) in concentration above 0.1% weight by weight (1000ppm).
AND
- Upon request by any consumer provide sufficient information to allow safe use. Request must be responded to free of charge within 45 days.

AMPTECH does not produce substances or preparations which need to be registered according to REACH regulation. AMPTECH's products are ASSEMBLIES of 'Articles' as defined in REACH Article 3(3). There is no intended release of substances subjected as to REACH and therefore registration does not apply for our assembly services.

AMPTECH does not support analytical testing for SVHCs. SVHC information is based on the knowledge of materials used in the finished products and information provided by suppliers.

As of this date and to the best of our knowledge, AMPTECH assemblies comply with the conditions of the restricted substances.
